WINE PREPARATION

Cuvée Laurent Muscat Rosé is made from grapes grown at vineyards throughout the Var region. Wines produced are the result of close collaboration between growers, vintners, and Vins Bréban company. All wines are produced according to very rigorous standards and specifications established by Vins Bréban with its partners: determination of the harvest date, vinification at low temperature, and specific yeasting. The fruit of a second 30-day fermentation called "prize de mousse", the wine is then filtered and bottled. Finished wines rest on slats for 3 months before being marketed.
